9 years teaching experience

Area of expertise

Special Education

Educational Background

1996 BAE Arizona State University

1996 Arizona Teacher Certification

2018 Missouri Teacher Certification

Awards

The BEST awards and rewards come from students...current and former.

Why I Chose Education as My Career of Choice

"I Believe the Children are Our Future..."

As a child who grew up in this very school district, I learned that a loving and caring teacher can change your path and ultimately change your life. After living in Arizona for over two decades, I found myself moving back to my hometown, and wanted to be there to support the students and families in my neighborhood- my own old school district from 1972- 1984! I am passionate about teaching and

building confidence in students. I want to help them follow their dreams and live their best lives!

Personal Interests

When I am not at school, you will find me at home playing with my dogs, cats, birds, and my hermit crab! I love music and art! Currently my favorite thing to do is learning Spanish on Doulingo!
